imperative ethical skills

↳ guideline

conscience...

Understanding Ethics

* ethics is the systematic study of what is morally right & wrong...
real life scenarios ⇒ mostly grey areas.

society → unwritten rules

→ Social norms ⇒ control day-to-day actions

↳ mostly unwritten & change from time to time

↳ standard behaviour of a group. ⇒ cluster
expected behaviour

concrete
particular place,
specific expectations

Conformist Member → is the person prepared as a
conformist member of
the society?

⇒ intentional or unintentional violations of the norms occur.

Deviant → not criminal → constitutional laws,
↳ disobey the norms → agencies to push the laws

considered as justified, fair, valid ⇒ social values → abstract idea

↳ provide collective sense
of right & wrong

⇒ norms vs values

② ethics provide principles to guide human behavior, social interaction, professional practice

↳ ACM code of ethics

why ethics matters in CSE? ↗

societal impact

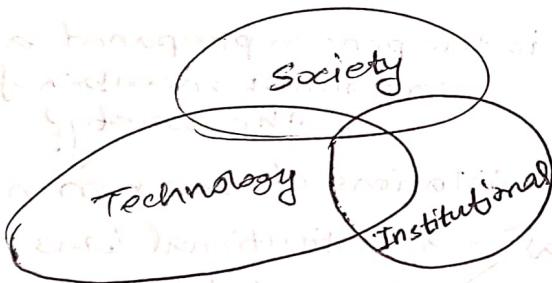

↳ holistic consideration in professional premises & beyond.

harm → minimized

deviant → can never be eliminated, can be limited

↳ respect towards norms

no penalty for violations → encourages deviant behaviour.

③ Laws are not enough to control human behaviour.

data privacy & surveillance

e.g. photos taken of traffic law violators...

scope ⑦ areas

2.1-2.7

(L11) 0604ft3

* social ethics & its importance

* scope of ethics

↳ many areas

① Data privacy & surveillance

* unauthorized data collection → significance of personal data

* surveillance systems and digital monitoring

↳ data driven

controlled manipulation

widespread social media → source of news

↳ not presented by editorial board

↳ censoring in news media

↳ misleading, fake info
targeted info manipulation

* misuse of personal info

* data breaches

} theft, sales, negotiations

preventive measures needed
for dealing & preservation.

ethical questions

② Cyber-security and Responsible Security Practices

{ BD Telecom Regulatory Act }

{ BD Cyber-security Act }

misleading info, defamation

↳ cannot control the cyber world actions completely

↳ may hinder freedom of speech

response to data breaches
prompt actions..

⇒ prevent foreseeable harm

human machine interaction

③ Social Media Ethics

artificial digital world $\Rightarrow$ creating hyper-reality

$\rightarrow$ artificial simulated reality

$\Rightarrow$ spread of harmful content

$\Rightarrow$ low self-esteem reduction

$\Rightarrow$ self-confidence $\downarrow$

filtered content

$\rightarrow$ regular communication, chats

$\rightarrow$ echo chambering & polarization $\rightarrow$ special pattern in hyper-reality

- ideological polarization

accessibility $\uparrow$, manipulation, ideological biases

repeated patterns in content $\rightarrow$ target audience

$\rightarrow$ tough to do this using newspaper, print media

* predict possible harmful events

$\Rightarrow$ manipulation through algo $\rightarrow$ ethical standpoint, extent of neutrality

④ AI & algorithmic fairness

why EVMs are not popular?

$\rightarrow$ imbalanced datasets $\rightarrow$ discrimination in automation

⑤ Intellectual Property and Software Piracy

conflicts, ethical dilemmas → why? how?

⑥

⑦

History of Ethics

why did the thoughts occur?
what were the goals?
formation...

③ periods

- classical [500 BC - 500 AD]
- industrial medieval [500 - 1500]
- modern

ethics of duty
ethics of consequences

Classical period: context

greek city-states

transition from agricultural feudal society to semirurban..

→ firm belief in
metaphysical
forces

shift from traditional reasoning

logical thinking

European philosophical debate emerged.

spiritual counterpart of medicine

questions raised
by
sophists

Socrates → Plato → Aristotle

father of western philosophy

published the quotes

→ no written docs

→ traditional ideas popularize the choices of rulers

↳ harmful for most

know thyself ⇒ question, further inquiry
no direct answers.

↳ approval from god/goddess

questioning was considered as blasphemy

Plato → intellectual pursuit is more desirable than personal pleasures.

↳ different from Socrates' idea of moderation

⇒ sense of morality in Christian morality dominated in medieval period.

↳ doctrine of predestination ⇒ Abrahamic religions

Plato, Socrates ⇒ no institutionalized religion in this period.

* Protestant Ethic and the Spirit of Modern Capitalism

Modern period → nationality, cause & effect

Ethics of Duty

↳ prioritize methodology over results

Ethics of Consequences Utilitarian

John Stuart Mill

→ economics

classical periodSocrates →Questions, Arguments ⇒ encouragedAgricultural Society — Commercial City StateTradition

* out-of-the-box
stuff is not
encouraged

→ dependence on nature

→ control ↓

[ongoing transformation in Greece]

* risk from other city states

* better position than conventional

ways

* out of the box thinking

Questions, Arguments* Sophists↳ mostly tried to please
the people↳ Socrates ⇒ Power/Ruler↳ influence existing
beliefsThreat

risky for the rulers.

↳ target: mostly young generationolder generation↳ practiced culture for a
long time → hard to change↓
severe cultural dominationeg migration rate ↓weaker cultural
dominationCounter Culturesects/groups in society that believe
that existing social beliefs/norms
need to change.↓
beneficial to only a
small group of people
e.g. rulers.

* Rulers deemed Socrates as a threat to their well-established rule.

↳ tried to control Socrates with power

↳ accusation of blasphemy, representing themselves as chosen representatives of God/Goddess.

↳ captivated Socrates

* Plato and other followers offered to free him and migrate to some other city state.

Question!/? ⊛ how questioning brings fulfillment?
in professional life?

Socrates → no written document → weakness

Plato → documented the discussions as 'Dialogue'
authored by Plato

no absolute idea
↳ main difference: Socrates aimed to develop a generalized moral framework. Plato tried to give it an
*** 'organizational form',

↳ how?

↓
moral reasoning has always been present.

② goals

personal achievement → personal satisfaction → focused by most
intellectual capacity development → important as per Plato.
important as → personal distinction of right & wrong is dependent on the life sphere → may not be optimal.

→ GOD

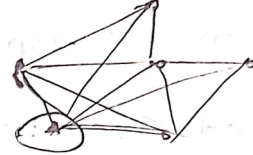

connected to god through intellectual development.

Plato → absolute sense of morality → existence of God
absolute idea of ethics

connected to lifestyle encompassing theological institutions in the middle age.

Functionalism → all the components in human society are well interconnected.

all the independent humans are connected at the larger scale.

Functionalist philosophy in human society.

↳ change in one of the components effects all.

⊕ everyone must maintain their strongholds for overall ethical standpoint.

Note → keywords from reading materials.

medieval period

↳ st. Augustine ☐ (2)

Plato, Aristotle, Socrates $\Rightarrow$ renewed

→ controlled by christian domain

doctrine of predestination

Medieval period

Christian Religious belief.

Doctrine of predestination

↳ from christian beliefs $\Rightarrow$ reward/punishment based on worldly acts
eternal life

how do people understand this?

Orthodox christian → salvation through strict following

↳ arrival on Earth → due to previous sins.

Bible → ~~was not permitted~~

Anch bishop, priest, -

regular people were not permitted to read

God's
chosen people

confessions to priests

Printing facility → studies ↑
printed Bible

Destination?

German priest → Martin Luther

Roman Catholic beliefs → modified

↳ daily activities are assessed to determine the final list

ethical principles -

→ Disciplined life

→ not harming others

→ work successful

↓
attentive to
work

↓ cannot nurse
pleasure principles.

→ discourages social interactions
which are unnecessary.

Religious reformation

The protestant ethics
and the spirit of
Capitalism

→ max Weber → socialist

principles guiding
the transformation
to modern capitalist
society.

16th century

European regions with protestant beliefs began to prosper

→ Industrial revolution

→ scientific knowledge

→ nationalization

→ administrative system

↓
modern bureaucracy

Personal property,
production, 'profit'

'Immanuel Kant'

idea of work

J. Stwart mill

idea of utilization

methodological
spirits

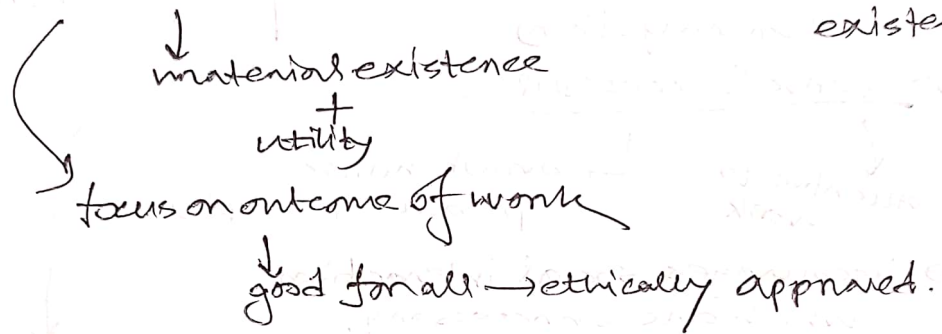

↓
pleasure principles
intellectual
ability

②
types

focus on the methodology rather
than the outcome

Deontology ??

Kant → pioneer of modern philosophy → establishes ideas which may not have material existence
Stewart Mill → economist

human rights } invisible contract with others.
social obligation }

ethics → restricts actions & decisions
→ teaches to consider the impact on others.

Question → these classes

reading materials

- ① Kant → doctrine of ethics → relation with modern capitalist society
- ② medieval period → Plato, Aristotle...
- ③ Introduction → 2/3 areas
relevance to CSE, ...
